

L&L Skin UV Magic mirror

UVMagic is a pioneering compact mirror that does double duty. A first of its kind, this magic mirror serves two functions: a conventional mirror on one side lets you quickly check your makeup and appearance. The opposite side is used to ensure you're totally protected from damaging UV rays, by highlighting where sunscreen is applied.

Product Structure

Specification Parameters

Product size	90mm x21mm
Product weight	105 g
working voltage	3.7V
Working current	290mA
Battery capacity	700mAh
Charging time	1.5 H

How to use

- **Power on:** Open the mirror from the clasp position and it will turn on automatically, then the home screen will be displayed. At this time, the product is turned on and you can perform operations.
- **Sunscreen Check function:** Long press the touch button at the bottom of the display screen, the display screen and the UV lamp light up, and the LCD screen displays real-time images. The position where the sunscreen is applied will be dark highlighted. After use, press the button to exit this function.
- **LED mirror function**
There are three kinds of brightness: soft, medium and bright. In standby mode, short press the touch button once, and the led around the mirror lights up. At this time, it is soft brightness. Press the button to select medium and then bright brightness, and press the button again to turn off the lights.
- **Power Off:** close the mirror and it will be powered off automatically.
- **Charging:** use USB data cable (type-C) to charge the product. During charging, the red indicator light is on and the red light goes out after it is full.

Cautions

1. After the product is opened, it will be automatically powered off if there is no operation for more than 5 minutes. If you need to start up again, you can close the product and then re-open it.
2. After use, please close the mirror in time to avoid battery consumption and affect normal use.
3. Do not disassemble this product by yourself.
4. Do not use in high temperature environment.
5. Do not turn on the machine when charging.
6. Please place the product in a dry and ventilated place.
7. This product is only to be used for chemical sunscreen, not for physical sunscreen.
